## NICAD @ W&M

NiCad is a multi-national experimental rock band that began in 2004 when five young foreigners met each other in The Hague's Royal Conservatory in Holland. The group quickly found their own unique style by integrating their musical backgrounds formed by growing up in **Japan**, **Israel**, **Chile**, the **United States**, and **Germany**. With live performances using self-built electronic instruments in a power rock setting, fronted by a charismatic American singer/songwriter standing next to a Japanese glam-rocker in kimono, NiCad brings a dynamic on stage that keeps listeners captivated and on the edge of their seat.
